construction machinery**

GRAMMER

PROTECTIVE COVER

Protecto™

Protection for Heavily Used Seats.

No one wants his good GRAMMER seat to get soiled or worn ahead of time. But during the course of a day at work, sometimes you sit down in your vehicle with dirty hands or clothing. Even the best seat suffers wear as a result of daily use. But now there is a solution: the new Protecto™ protective cover from GRAMMER, which takes the brunt of it instead of the seat!

Designed for Hard Jobs.

The high-quality Alcanta fabric is highly dirt-resistant and robust, and naturally washable. Because it consists of two or

three parts, it's easier to put on, it optimally adapts the seat's shape, and it's simple to readjust when needed. Ideal for all seats up to 530 mm seat cushion width. Not suited for seats with climate control.

Models / Article nos.:

- Protecto™ Offroad cover for seat and seat-back 1200866
- Protecto™ Offroad cover for back extension (for the Maximo, Primo and Compacto seat models) 1200868
